

FAIRFAX COUNTY
ELECTRONIC DATA INTERCHANGE (EDI)
BASIC TRADING PARTNER AGREEMENT

THIS ELECTRONIC DATA INTERCHANGE TRADING PARTNER AGREEMENT (the "Agreement") is made as of the _____ day of _____, 20____, by and between _____ (The "Trading Partner") with offices at _____ and Fairfax County (the "County") with offices at 12000 Government Center Parkway, Fairfax, Virginia, 22035.

This agreement prescribes the general procedures and policies to be followed when EDI is used for transmitting and receiving purchase orders, invoices, shipping notices, or other business information in lieu of creating one or more paper documents normally associated with conducting business with the County. Now therefore, the parties, intending to be legally bound, agree as follows:

The County will transmit and receive, over the County's contracted Third Party Service Provider's (TPSP) network such transaction sets (documents) as it chooses and as are recognized by the American National Standards Institute (ANSI) Accredited Standards Committee X12. The transaction sets will be transmitted to the Trading Partner in accordance with this Agreement. The Trading Partner agrees to be bound by the terms and conditions contained in such documents, this Agreement and any applicable contract.

All EDI obligations and electronic submissions are legally binding on the parties in accordance with this Agreement. Further, the use of any electronic or fax equivalent of a County standard business document referenced in this agreement or any Addendum to this agreement will be deemed an acceptable business practice and that no trading partner will challenge the admissibility of the electronic information in evidence, except in circumstances in which an analogous paper document could be challenged. Nothing contained in this agreement will take precedence over any contract under which this agreement is implemented.

1. Terms and Conditions

- a. Each trading partner will specify on the attached EDI Vendor Profile Form (Addendum A of this agreement) their X12 Identifiers and Elements.
- b. The County will send electronic documents to Trading Partners via its TPSP. Receipt by the Trading Partner is considered to occur when the transaction is placed in a mailbox on the Trading Partner's TPSP network.

- c. The County will bear the costs of placing documents in a trading partner's TPSP's electronic mailbox or in the trading partner's mailbox on the County TPSP network and receiving documents that the trading partner places in the County's mailbox. The County's Trading Partners are responsible for all costs associated with receiving orders from the trading partner's mailbox and transmitting documents to the County's mailbox.
- d. The following requirements are defined in the EDI Vendor Profile Form (Addendum A of this agreement):
 - 1. The time requirement for the Trading Partner to acknowledge receipt of transactions sent by the County to the Trading Partner with a Functional Acknowledgment (FA, ASC X12 997 transaction set).
 - 2. The time requirement for the County to acknowledge receipt of all transactions sent by the Trading Partner to the County with a Functional Acknowledgment.
 - 3. The County's TPSP, TPSP address information, and X12 sender and receiver identifications.
 - 4. The ANSI ASC X12 version and release for each transaction exchanged between the County and the Trading Partner.
- e. When the transmissions are delivery orders issued pursuant to an established County contract, then, in addition to the above stipulations, the terms and conditions of the contract shall apply.
- f. If a trading partner receives a garbled transmission, the County must be contacted immediately to arrange a retransmission. If the County receives a garbled transmission, it will contact the sender to request a retransmission.
- g. The County and trading partner will perform an initial test phase to verify the sending and receiving of EDI documents. EDI documents shall use the X12 Test/Production indicator, "T", to mark documents as test. Once both parties agree that the test phase has successfully been completed, all future EDI documents shall be marked as "P" for production.
- h. Any document from the County system placed into a trading partner's mailbox is to be considered a valid and authentic document as would be a paper transaction. Likewise, any document from a trading partner placed into a County mailbox will be considered a valid and authentic document as would be a paper transaction.

- i. Addendum B contains the specific Fairfax County Purchase Order terms and conditions

which are relevant for all vendors desiring to conduct business with Fairfax County.

2. Force Majeure

None of the parties in this agreement will be liable for failure to properly conduct EDI in the event of war, accident, riot, fire, flood, epidemic, power outage, labor dispute, act of God, act of public enemy, malfunction or inappropriate design of hardware or software, or any other cause beyond such party's control. If standard business cannot be conducted by EDI, the County will, at its discretion, return to a paper-based system.

3. Effective Date

The effective date of this agreement will be the latest of the date(s) shown on the signature page of this document.

4. Termination

This agreement may be terminated by either the County or this trading partner, effective 30 days after receipt of written notice by either party. Termination will have no effect on transactions occurring prior to the effect date of termination.

5. Governing Law

This order and the performance thereof shall be construed and governed in accordance with the laws of the Commonwealth of Virginia and the *Fairfax County Purchasing Resolution*.

6. Severability

Any provision of this Agreement which is determined to be invalid or unenforceable will be ineffective to the extent of such determination without invalidating the remaining provisions of this Agreement or affecting the validity or enforceability of such remaining provisions.

7. Whole Agreement

This agreement and all addenda constitute the entire agreement between the parties. No changes in terms and conditions of this agreement shall be effective unless approved and signed by both parties. As the parties develop and implement additional EDI capabilities, addenda may be incorporated into this agreement. Each addendum will be signed by both parties. The latest date contained on the signature page will be the effective date of the addendum. The addendum will be appended to this agreement.
